1. Introduction

JCJ Group was established with the main focus on the identified need in terms of job creation, people development and service delivery in the electrical & civil industry with a small group of competent engineering personnel covering a broad spectrum, but not limited to the field of engineering.

The range of services includes but are not limited to:

- Mechanical
- Commercial & Residential Electrical work
- Plating and Welding
- Civil Works
- Mining
- Agriculture
- Solar & Inverter Installations
- Generator
 - Service, repairs and installations
- Apprentice Training Equipment
 - Design & Supply
- Electrical & Mechanical Millwright
- Commercial, Industrial and Household Electrical Fault Finding
- Borehole Pumps
- Solar Pumps
- Solar Geysers
- Automations
- Certificate of Compliance

2. Company Philosophy

Developing technical excellence through people in order to develop a Nation with sound fundamentals, values and principals

Our Mission

To become the leading electrical & civil engineering firm, while delivering projects that consistently exceed standards and provide exceptional customer satisfaction.

To continually deliver excellent value & innovative solutions to meet our clients' requirements.

Using modern principles and sophisticated technologies, JCJ Group envisions being the primary preference at all times, for their renowned excellence, quality, performance and reliability in all types of electrical & construction works

Our Vision

- To prosper a high tech company with Christian values in a Country with high corruption and crime levels
- It is our firm believe that honesty, integrity and total transparency towards our clients is key to success.
- To be a leading electrical & civil construction company in South Africa.
- To become the customers' most preferred choice by attaining excellence in quality and timely completed value added projects.
- To provide the highest level of service in the construction, electrical and solar industry while offering superior craftsmanship to every project, we handle.
- To continually innovate, develop and adopt state-of-the-art technology in methods and materials to enhance productivity and cost effectiveness.
- To continually improve the competence of our team, and employ diverse, innovative & results-oriented personals, motivated to deliver excellence.
- To build a safety culture aimed at continually reducing the frequency severity rate towards achieving zero accidents.
- To identify and mitigate all the environmental impacts arising from our activities, and comply with applicable environmental policy.

3. Why Do We Exist?

The absolute need for qualified and competent technically skilled personnel that is service orientated, is essential for the development of South Africa and its infrastructure.

JCJ Believes that with a dynamic network it could make a difference in supporting business plans of companies and subsequently individuals.

4. Basic Beliefs in Business

Sound business principals

- Making market related profits
- Servicing customer needs as our first priority
- Business sustainability approach i.e. forecasting, good administration, cash flow, business and strategic plan reviews, people development, good corporate and national governance.

~ To succeed in business it is necessary to make others see things as you see them~

6. Maintenance Protocols

Our teams consist of carpenters, painters, electricians, plumbers, builders, and more. We are more than capable to quote and deliver our services efficiently and professionally.

7. Quality & Safety Policy

We are duly aware of the Health & Safety Act and proudly follow all safety protocols within our workplace to meet the standard requirements. This covers all aspects of our business operations.

Quality Statement

To provide the best quality workmanship and service to meet our Commitment and expectation set by our clients.

Our policy ensures that:

All aspects of contractual obligations are addressed and fulfilled.

All Quality Assurance Records are completed and compiled, and are freely available for the client's perusal.

Company employees at all levels are aware of the company's commitment to providing goods and services in accordance with the established quality assurance system . Suppliers and subcontractors used by the company understand and comply with all aspects of the Quality Plan. Our employees are an important part of all our operations. For that reason their health and safety is an important part of all our business operations. We encourage them to help improve our competitive position and develop a reputation by our customers, as a provider of goods and services unsurpassed in our industry.

8. Guarantees

As per a mutual agreement with each client individually, we guarantee our Workmanship from a period of 6 months up to 12months, depending on our involvement concerning the equipment routine and maintenance. Any materials and replacement spares supplied by suppliers carry factory guarantees.

9. Managing Business in South Africa

In order to sustain our business in the context of South African laws and acts we are fully aware of :

- I S O Standards
- Ethics
- Basic Conditions of Employment Act
- Occupational Health and Safety Act
- BEE / HDSA Requirements
- Health and Safety
- Etc.

- Company policies and procedures
- Legal requirements
- Labour Relations Act.
- Mines Health and Safety Act
- Social Development
- Environmental Issues

However, JCJ can realistically only address the basic minimum initially on our journey to become a National player. As business grow we can employ and deploy resources to address the other requirements. It is a known fact that South Africa is an over regulated country with huge adherence and compliance problems. We strive to grow gradually and do “business” right as and how the company evolves.

10. Brands We Work With

Here are some brands we work with, but we do business with many other brands too not listed here

VOLTA

CanadianSolar

Schneider
Electric

electric
low voltage

ATESS

solis

The image features a central, glowing orange and yellow globe of the Earth, showing continents and oceans. The globe is set against a dark background filled with intricate, golden circuit board patterns. The text "JCU" is prominently displayed in large, bold, black letters with a white outline and a slight 3D effect, positioned over the upper part of the globe. Below "JCU", the word "GROUP" is written in a smaller, orange, sans-serif font with a white outline. The overall composition suggests a theme of global technology or digital connectivity.
